Do not use magnetized scissors or razor blades when splicing. Magnetized instruments will cause a "click" or "pop" at the splice.

1. Overlap the two ends of the tape and cut them diagonally. (A diagonal cut minimizes disturbance at the splice.)

2. Align both ends with the uncoated side up. Avoid Contamination body oils or firm splice.

3. Cover ali

Brand Splicing Tape No. 41. Apply it diagonally, pressing firmly to make a tight splice. "SCOTCH" Splicing Tape is recommended because it doesn't ooze, always

FOR BET

No. 41—Splicing Tape
 A pressure-sensitive tape expressly made for neat, noiseless splicing. Makes strong and lasting splices that get stronger with use. Won't get gummy, sticky, won't ooze, bleed under tape. Available in 7/32" long rolls or 1/2" on convenient dispenser.
